

9th class worksheet 50

Activity 49.2:

Environment sensitivity.

B. What does 'Recycle, Reuse and Reduce' mean? Do you agree that it is a good practice?

Answer:

Recycling uses old products in new ways. Reduce means to minimise the amount of waste we create. Reuse refers to using items more than once. Recycle means putting a product to a new use instead of throwing it away. Yes, I agree that it is a good practice.

C. Writing task

Why is it important to reduce reuse and recycle?

Answer:

The importance of reducing, reuse and recycle

Saves you money:

When you do any of the above, you will save money. Instead of getting something new that costs more, you have ways that ensure you do not purchase anything.

Saves the environment:

These three R's are imperative in saving the planet. When garbage becomes too much, a lot of things go wrong. There will be pollution of all kinds, the emergence of diseases and health epidemics, among others.

Saves our natural resources:

Companies use a lot of natural resources in the manufacturing process. When we implement the three R's, the need for new products goes down thus saves the resources. No one will ever go wrong by implementing the three R's. These three will save us a great deal.
