Q.VI 14. A recent family function you attended.

Last week, my cousin brother's engagement took place in a grand style and it served to be one of the most enjoyed family functions in our family. The function held in 'The Leela Palace' and the entire place was beautifully decorated in purple. As per the theme, we all were dressed in our designer clothes in combination of purple and pink. The 'would-be bride and groom' reached the venue and the function began. The ring exchange ceremony was unique this time. We arranged an elevated stage which lifted the bride and groom in air and the ceremony held with the auspicious mantras and blessings of the elders. After, each member of the family presented a dance performance dedicated to the couple.
