 - 14) She was at her home
 - 15) Diary
 - 16) What do the students write?
 - 17) a) Buy b) Individually

 - 18) Swamy and his father have different views about strength and courage. According to Swami, age and strength were more important for adventurous tasks. But in Swami's father's view, strength and age were not so important; courage was all.
 - 19) Ambedkar was very fond of reading books from his childhood. Throughout his life, he read books. Wherever he went he bought books. He had an insatiable thirst for books. He bought 2000 books from New York and 32 boxes of books from London. This shows that he was a voracious reader.
 - 20) According to the author Borok, some people choose to become scientists because they cannot live without science. To them science is an adventure and the discovery made is he reward. Instead of money they enjoy freedom, friendship and the joy of uncovering the mysteries of nature.
 - 21) According to Satish's father, he should learn something by reading and be able to earn his livelihood in the future. Instead of that, if he spends his time in painting, how should he lead his future as a mere an artist? At last, he understood that his son's destiny lies on canvas, and painting let him achieve in his chosen field.
 - 22) When the jazz player begins to play, he transforms into a bird and flies away. Therefore, the poet says that he is no longer a man, not even a black man.
 - 23) Patil the sub-inspector came to Mohan's house to give a warning about the raid on his wife. As he was a close friend of Mohan's father, he asked Mohan to give him the cyclostyle machine and all proof pertaining to the agitation against the British.
- OR**
- From childhood days she had an urge to climb Mount Everest. Daily she watched the beautiful, breath-taking view of the Mountain. She had firm determination, and hard work helped her. She practiced for 4 hours a day. She had one-track mind and ready to face hardships. Her desire grew when she came to know about the newly opened mountaineering institute in Manali. She was just 16 years at that time. She joined the institute and got 'A' grade and selected at all India level.
- 24) The absence of the mother taught the children the virtue of self- reliance and responsibility. Their mother going to work without excuse gave them the message that one's duty is the most important thing in life.
- OR**
- When the bird of Happiness caressed Wangjia gently with its wings and sang for him. The eyeballs came back & he got the vision which was brighter than before. All his wounds disappeared and he got strength.
- 25) As soon as Baleshwar saw a girl lying by the side of the tracks, he pulled the chain, jumped off the train, and ran back to where she had fallen. He found her unconscious, with a gash in the head. He carried the

bleeding girl across the tracks. But, even after he reached this road, no one stopped to help him. Fortunately, a tempo truck driver helped Baleshwar take the girl, whose name he learn't was Roma when she regained consciousness for a brief while, to a nearby hospital. On coming to know that the hospital lacked the required equipment and personnel to treat the girl, the truck driver took them to another bigger ospital, the Divine Multi-Speciality Hospital at Ghansoli. The doctor admitted her immediately without standing on formalities and gave her first aid. As the doctor said, although the injury was not of a very serious kind, if no one had bothered to help Roma, she could have bled to death.

26) The poem 'I Am the Land' makes a powerful statement against man's different ways of exploitation of the land. As a builder, as a consumer, as an urbanite and as a warmonger man continuously takes the land as his own and ill-treats it. The land watches everything patiently and waits for things to change. The land on and off has hopes for better things as good sensitive man plants and brings life to the land. When the land thus comes to life with trees, fruit, and grass, it's rejoicing time for all. Children dance and someone sings. But the joy does not last. Man, in his role as a warmonger, chokes the land. But the land is resilient. It waits even now. But now it is assertive. It tells a man that he cannot fence the planet earth. The land continues to wait. But this time it waits to see if the man has taken the cue to change for the better. If a man still exhibits no common sense, it would be his lot to suffer.

27) a) Colombus
b) Pepe
c) It reveal the child loyalty

28) a) Anant
b) Attending Pandit Ravi Shankar Concert
c) Because was suffering from cancer and that was his last chance to attend the concert.

b) In the outer space
c) because there is no day and nights happens and no seasons, he can sleep or wake up according to his wish.

31) This profile is about Sudha Murthy. She was born at Shiggaon, on ,19th August 1950. She completed B.E with M.E. She is chairperson od Infosys Foundation and a writer too.Her notable works are How I taught my grandmother to read,Mahasweta,and Dollar Bahu. She was awarded Padma Shri and Padma Bhushan.

32) Bear and two friends

Once upon a time two friends were walking through a jungle path then the sun set. They afraid and held each other. While they saw a bear coming towards them so one of them climbed the nearest tree but other couldn't climb so lay on the ground. Then the bear came near him and whispered in his ears and thought he was died so it went back. After the other who climbed the tree came down and asked him that What bear told to him the. He replied don't truest the friends who do not care for you. Moral of this story is **Don't trust none.**

33) This is picture bus stand. We see many buses in the bus stand. Bus stand is a place where the buses stop to pick up or drop off of the passengers. We can see a lot of passengers waiting for the bus. We can see the ticket counter and control room. Buses are very important for us to travel even we had our own vehicle.

34) The throned monarch better than his crown:
His sceptre shows the force of temporal power,
The attribute to awe and majesty,
Wherein doth sit the dread and fear of kings;

OR

My day or night myself I make
Whene'er I sleep or play;
And could I ever keep awake
With me 'twere always day.

35) a) All these people see only one of the several purposes of education. It should produce men who love their own country but who do not want to harm other countries.
b) Some people think education's chief aim is merely to give knowledge. These people want students to read books and do nothing else and add to their knowledge.

36) The poem 'Grandma Climbs a Tree' is written by Ruskin Bond. He calls his grandmother as "genius" because she could climb a tree. Even at the age of 62, she was passionate to climb a tree and learn it from her loving brother at the age of six. Everybody feared that granny would fall from a tree one day. One day she climbed a tree but could not come down. After the rescue the doctor recommended her rest for a week. But for granny it was like brief season in hell. She demanded a house to be built in a tree. The poet's father who was dutiful, fulfilled his mother's wish, so that granny moved up and enjoyed as her wish.

OR

The poet wants to sing in praise of mother India. He wants to sing a song of praise of the snow-peaked Himalayas that protect the country, the three seas that make India a peninsula, and the sunrise that heralds new dawn replacing the dark night.

OR

It was dark, stormy night in winter a ship was out at sea. Huge waves dashed against the ship and the roar of the sea filled the sailors with fear. They crowded together in one cabin. Even the bravest among them could not sleep. They just sat in the dark-ness and prayed. As the storm continued, the captain too gave up hope and said that nothing could save them. At that point, the captain's little daughter held his hand and quietly asked if God protected them on sea. Her faith in God filled the sailors with a new hope. By morning, the storm cleared and they reached harbour safely.

37) Air pollution

Introduction:- Air pollution has become One of the most serious environmental issues nowadays. Harmful gases, dirt, smoke when get mixed into the atmosphere, then air becomes polluted. This is called air pollution.

Causes :- Natural causes for air pollution are forest fire, dust storms and volcanoes. Man made causes for air pollution are smoke from vehicles and household items, industrial pollution, burning of fossil fuels, trash, leaves etc. Deforestation is also a main cause of air pollution.

Effects :- Air pollution is very much harmful for all living beings and environment. Global warming and acid rain are main effects of air pollution. It cause several health diseases like breathing diseases, respiratory problems, skin diseases and eye, nose and throat irritation. Air pollution is harmful for forests, animals, water bodies and crops.

Remedies: - We should plant more and more trees to make air pure. Use of public transport, car pooling and electric vehicles and less use of electricity can control air pollution. We should stop burning of fossil fuels, trash and leaves. Use of alternate energy like solar energy, wind energy can help to reduce air pollution.

Conclusion:- We should take preventive Measures to control air pollution. Steps should be taken globally to stop it. Reuse and recycling of waste. Material eco-friendly & life style and afforestation should be adopted by humans. To control air pollution.

OR

India after Chandrayana-3

Introduction:- Chandrayaan-3 is India's ambitious and successful lunar mission. Following in the footsteps of its predecessors, Chandrayaan-1 and Chandrayaan-2, Chandrayaan-3 is India's successful attempt to achieve a soft landing on the southern pole Moon's surface. India is the only country to reach this part of the moon, so far

1. **Elite Lunar Landing Achievement:** Chandrayaan-3's successful soft landing on the Moon will establish India as part of an exclusive club alongside the US, Russia, and China. This achievement will showcase India's prowess in space exploration and engineering.
2. **Boosting National and Economic Pride:** The successful completion of Chandrayaan-3 will boost India's national pride as it demonstrates the country's technological capabilities and advancements in space exploration. It will also have positive impacts on India's economy, attracting more investments in the space sector
3. **Enhanced Global Reputation:** The Chandrayaan-3 mission will enhance India's global reputation in the field of space exploration and scientific research. It will solidify India's position as a leading player in space missions, garnering respect and recognition from the international community.
4. **Technological Advancement:** Chandrayaan-3 will contribute to technological advancements in various sectors, including space research, engineering, and communication. The mission will drive innovation and foster the development of new technologies, which can be used in other industries.
5. **Scientific Discoveries:** Chandrayaan-3 will provide valuable data and insights into the moon's geology, mineralogy, and environment, contributing to our understanding of space and the universe.
6. **Future Exploration Opportunities:** The successful completion of Chandrayaan-3 will open doors for future collaborative missions and partnerships with other countries engaged in space exploration. India can actively participate in global space initiatives and contribute to future deep space exploration programs.
7. **Economic Growth and Job Creation:** The space sector is known for its potential to fuel economic growth. Chandrayaan-3 will create opportunities for research, development, and manufacturing, creating jobs and promoting economic activity in related industries
8. **Education and Inspiration:** The mission will inspire and captivate the imagination of young Indians, encouraging them to pursue careers in science, technology, engineering, and mathematics (STEM). It will promote science education and play a significant role in nurturing the next generation of scientists and astronauts.
9. **International Collaboration:** Chandrayaan-3 offers opportunities for international collaboration, facilitating knowledge exchange, and fostering stronger ties between India and other space-faring nations. Collaborative efforts can lead to joint projects, sharing of resources, and advancements in space technologies.
10. **Spin-off Technologies and Applications:** The technologies developed for space missions often have spin-off applications in various sectors, such as healthcare, telecommunications, and transportation. Chandrayaan-3 will give rise to innovative technologies that can be further utilized to address societal challenges and enhance everyday life.

Conclusion:- On 23 August, the Chandrayaan-3 lander module successfully landed on the moon's South pole, making it the first country to have achieved the historic feat. The country became the fourth- after the US, China, and Russia – to have successfully landed on the moon's surface.

OR

Mobile addiction in students

Introduction:- Mobile addiction is a real problem and a cause of great concern. It impacts our health, relationships as well as work. People suffering from mobile addiction suffer from nomophobia which is the fear of being without or unable to use your mobile phone for some reason or the other.

Phone mobile addiction may lead to:

It diverts the students mind toward bad thing's

Cause lack of sleep and effect in students health

It reduce the concentration and interest of students about study.

It cause mental and Psychological disorders.

It reduce the memory power of students

Conclusion:- Mobile phones have been created for our convenience. We must limit their usage to take charge of our lives. If you feel, you are getting addicted to your mobile phone then look for ways to get rid of it. You should also take it as your responsibility to help your loved ones get rid of this addiction.

Dear Friend

You will be glad to know that my birthday comes off on 3rd September. I have arranged a small party at our house in the afternoon at about 5 p.m. on that day. I would earnestly request you to join the party. Nupur, Suchitra, Lila and some other friends have agreed to attend it and I sincerely believe you will also join us. There will be lots of fun in the party. I am looking forward to seeing you.

Yours truly,
Pavani/ Prabhav

Respected Sir

Sub:- Expressing my concern on overuse of plastic in my town.

Dear Editor, I am writing to express my deep concern about the widespread use of plastic bags in our town. Every day, millions of plastic bags are used around the world, causing significant harm to our environment and wildlife.

Plastic bags are not biodegradable and can take hundreds of years to decompose. They often end up in our oceans, rivers, and forests, polluting our natural surroundings and harming marine life and animals. This is a major threat to the health and well-being of our planet, and we need to take action to address it.

So I requesting you to publish an article about this in your paper and inform all the leaders and make them take bold step to overcome from this problem.

Thank You
Pavani/Prabhav
